Pasji Rep Moser 2022

Moser is the top white cuvée from Pasji Rep. Biodynamically grown, hand-picked, short skin fermentation, wood maturation & minimal intervention during the vinification process. With Jebacin white, Samo already made one of the better white wines from the Vipava region; with this Moser, a qualitative leap is made once again.

Rich, full, structured style. Despite the maceration, this drinks like a full type of white wine.

16.49 €
