Rossidi Chardonnay Egg-fermented 2024

Full bodied, complex chardonnay with a backbone of fine freshness. Deliciously fruity with a mineral undertone. A tongue-tickling texture in the mouth. Wonderfully long, powerful, fresh finish.

The exceptional complexity is created by the exceptional quality of the terroir and the fermentation and maturation in a concrete egg. This concrete egg ensures that the wine continues to move during maturation, which creates a better flavor build-up.

11.53 €

Winery	Rossidi
