

Marko Fon Lui 2021

The grape whisperer. That is the nickname that immediately came to mind after a visit to Marko's winery. Marko lives among his vines; and treats them as well as his children. And that results in beautiful wines.

Teran is not immediately known as a grape for its finesse. And yet that is what a top winemaker like Marko knows how to achieve with it. A refined, elegant and oh so tasteful red wine. Already delicious, but can easily mature in your cellar for a while.

32.23 €
