

Borovitza Gamza Black Pack 2023

Gamza is a grape that is mainly grown in the cooler North of Bulgaria. Some call it the Bulgarian Pinot Noir. A comparison that is true in the case of Borovitsa.

In this single vineyard version we get somewhat darker, riper fruit and a more pronounced spiciness, still with that characteristic finesse of the grape. The tannin structure is also somewhat more present than in the basic version.

10.74 €

Winery	Borovitza
Country - Region	Bulgarije
Winestyle	Red: complex & elegant
